Register interest in Guiding

We'd also ask you to register any interest in hearing from us (not necessarily in signing up as a girl or adult member) directly into a webpage via tablet or phone, as many of you already do at various promotional events. National Office can provide a template form to gather an individual's information if an electronic device or the internet is not an option. National Office would then undertake to email people interested in finding out more about Guiding – there would be no expectation of follow-up work for local volunteers or members.
